

17.1. Managing children with allergies, or who are sick or infectious.

Appendix

During the COVID-19 outbreak, any child showing symptoms, such as a high temperature; a new, continuous cough; loss of taste or smell, the following sequence of actions need to be taken:

1. Child presents with symptoms; parents are requested to collect child and seek diagnosis from GP or take further advice from NHS 111.
2. Child's parents are requested to inform setting of outcome/diagnosis and keep child at home for the recommended exclusion period. For cases of suspected Coronavirus, staff and service users must adhere to current Government advice regarding self-exclusion even if no symptoms are present.
3. For confirmed cases of a notifiable disease and Coronavirus the setting must contact their local Health Protection Team (HPT) as soon as possible for further guidance. The line manager will inform the management committee and retain a confidential record.
4. Acting on the advice of the local HPT, the setting will either:
 - close for a set period and undertake a deep clean
 - carry on as usual but also undertake a deep clean
5. If a notifiable disease is confirmed, staff must inform the line manager immediately and Ofsted must be informed within 14 days. Cases of confirmed Coronavirus should be treated as a notifiable disease.
6. A deep clean is undertaken at the soonest opportunity following any illness outbreak. Hand hygiene messages are reinforced, and staff are vigilant to any further signs of infection.
7. The manager continues to liaise with the HPT as required and keeps a full record of children affected, how long they are away from the setting and the date on which they return.
